

Durham
Transit Plan

DURHAM COUNTY FY25 TRANSIT WORK PROGRAM

DRAFT

GO FORWARD
A COMMUNITY INVESTMENT IN TRANSIT

SUMMARY

The Draft FY25 Transit Work Program (“Work Program”) strategically programs transit revenues to projects that advance the recently adopted in the 2023 Durham County Transit Plan.

The Work Program incorporates updated revenue projections that correspond with higher than forecasted actual transit sales tax revenues collected in FY24 and the continued removal of the Vehicle Rental Car Tax in accordance with a decision by the GoTriangle Board of Trustees. With these changes, **overall revenues are projected to be 8% higher through 2040 as compared to the 2023 Durham County Transit Plan.**

The Work Program is fiscally balanced in FY25, and the multi-year operating and capital plans were developed and modeled to ensure all projects through 2040 continued to be financially feasible while maintaining financial model assumptions consistent with the adopted policy.

Overall, the Work Program continues and advances the themes from the 2023 Durham County Transit Plan. The Work Program includes many operating and capital projects that are a continuation of projects in prior Work Programs or that were specifically programmed in the 2023 Plan. These projects correspond with the Transit Plan themes to improve the current system through the rapid expansion of bus operating projects in the short-term, improve bus stops and transit stations, and remain focused on the delivery of existing capital projects, plans, and studies.

There are several projects or project categories with notable changes; and there are two new projects included in this Draft for board and public feedback.

Figure 1: Durham Transit Plan Themes

New GoDurham and GoTriangle Bus Services

While the FY25 Operating project budgets are consistent with the Durham Transit Plan, the Operating projects have increased significantly for FY26 through FY40. This reflects both an increased operating cost per hour for GoTriangle and additional services that were not included in the Durham Transit Plan. In the Work Program, funding levels were increased in FY25-30, which reflects the theme of improving the current system for riders quickly.

Better Experience at Stops and Stations

The cost for improvements to Durham Station has increased to \$20.5M. The Durham Transit Plan has \$2.7M currently appropriated for this project and the Work Program adds \$7.28M for a total of \$9.98M. This project has also received a \$10.8M federal grant. The additional Work Program funding reflects the priority to improve the experience at bus stops and stations and leverage transit tax revenues for federal grant opportunities. Funding for GoTriangle’s Regional Mobility Hub and the Durham Bus Stop Improvement program also continue in FY25.

Prepare Bus and Paratransit Maintenance Facilities for Expanded Services

The transit plan share of the City of Durham’s Bus and Paratransit Maintenance Facilities has increased from \$5M to \$30M to better compete for federal grant opportunities. While the Transit Plan set a \$5M share for these projects, the full cost is anticipated to be \$60M. \$30M represents 50% of the total project costs with federal and/or local funding providing the remainder. Funding is programmed in FY25 to initiate design and land acquisition for these City of Durham projects as well as the next steps for the GoTriangle Bus Maintenance Facility.

New Proposed Projects for Bus Fare Subsidies

The City of Durham and GoTriangle have both proposed new programs to offset the cost of fares for transit riders and have requested that the Durham Transit Plan support these efforts. Fare support was not considered in the 2023 Durham County Transit Plan as GoDurham and GoTriangle had either not decided on return to fares or had stated that they would continue to fund fare free service through other means. GoTriangle has now decided to prepare to return to fares long-term, and the City of Durham has proposed to remain fare free for FY25 with a long-term decision to be decided later.

GoTriangle's Low-Income Fare Program will provide free transit passes for eligible riders who receive public assistance. It is proposed to be a regional program with costs shared by each County Transit Plan on a 70/20/10 split, and it may be used by other local bus systems.

The City of Durham's request is to direct existing appropriated funding for the Youth GoPass and Fare Collection Improvements to the City to offset the cost of fare free for all riders in FY25.

The Work Program includes these projects for board and public feedback on any principles or guidelines for these two fare support efforts. A Fare Collection and Subsidy Policy needs to be developed to provide guidance on if and how the Durham County Transit Plan should support programs to offset the cost of fares.

Improving Budget Transparency and Implementing the Accountability Framework

The Work Program includes a new format for project sheets to improve transparency and accountability to the governing boards and the public. These project sheets will serve as the exhibit for the required Multi-Year Operating and Capital Global Project Agreements. These agreements must be adopted by June 30, 2024, for all projects. A Durham Transit Tracker website is in development that will allow for ongoing reporting of expenditures and project implementation.

PROJECTED REVENUE

\$43,000,000

½ Cent Sales Tax

\$766,945

\$3 Registration Fee

\$1,789,588

\$7 Registration Fee

TOTAL = \$45,556,533

RECOMMENDED CAPITAL EXPENDITURES

\$17,585,870

Transit Infrastructure

\$500,000

Regional Connections

\$1,172,446

Vehicle Acquisition

TOTAL = \$19,258,316

RECOMMENDED OPERATING EXPENDITURES

\$2,420,200

Transit Plan Administration

\$16,682,694

Transit Operations

\$503,241

Tax District Administration

TOTAL = \$19,606,135

DURHAM FUND BALANCE PROJECTED END 2024

~\$127,000,000

Fund Balance projected at end of FY 2024

\$6,692,082

Proposed FY 25 Fund Balance Transfer

TOTAL = ~\$133,692,082

This proposed work plan designates funding to four (4) agencies in FY25: City of Durham, Durham County, GoTriangle, DCHC MPO and funds for Regional Connections in reserve. Programmed expenditures by agency are shown below:

RECOMMENDED EXPENDITURES BY AGENCY

\$27,125,968

City of Durham

\$642,693

Durham County

\$10,554,989

GoTriangle

\$40,801

Durham-Chapel Hill-Carrboro MPO

\$500,000

Reserve

TOTAL = \$38,864,451

Note: Recommended Expenditures by Agency represents the Agency/Project Sponsor the funding is allocated to within the Work Program. Funding for some of the projects, such as the Durham Bus Stop Improvements, are for the benefit of other agencies and not necessarily the project sponsor.

BACKGROUND

In accordance with state law, the governing boards of GoTriangle, Durham-Chapel Hill-Carrboro Metropolitan Planning Organization (DCHC MPO), and the Durham County Board of Commissioners adopted the first Bus and Rail Investment Plan in 2011, prior to the referendum on the transit sales tax. Following approval of the transit sales tax referendum in Durham County in 2011 and approval of the transit sales tax referendum in Orange County in 2012, an Interlocal Agreement (“ILA”) was adopted by the three governing parties in 2013. The ILA established processes and roles for the administration of the transit revenues including the creation of the Staff Working Group (“SWG”), comprised of staff from the three parties to the ILA, to serve as an advisory body to the governing boards.

In Spring 2023, an updated Durham County Transit Plan and new ILA were adopted by the three governing boards. The new ILA included several changes to further strengthen the partnership among the three governing bodies, allow for more interagency coordination and cooperation, and improve project reporting and accountability. The 2023 ILA designates four members of the SWG.

The SWG serves as the administrative and advisory arm to the parties of the ILA and is charged with several responsibilities, including the preparation of a recommended Annual Work Program. A SWG Administrator hosts, convenes, and administers the work of the SWG. Durham County was designated as the SWG Administrator by the three governing boards in 2023.

The 2023 ILA states that the Annual Work Program must consist of:

- Annual Operating Budget Ordinance
- Annual Tax District Administration Budget
- Multi-Year Capital Improvement Plan
- Annual Capital Budget Ordinance
- Annual Operating Program

Figure 2: Members of the Staff Working Group

- Adjustment of the Current Durham Transit Financial Plan and Financial Model Assumptions
- Multi-Year Capital Global Agreements
- Multi-Year Operating Global Agreements

The 2023 ILA also requires the Annual Work Program be adopted by both the Durham County Board of Commissioners and the GoTriangle Board of Trustees.

Figure 3: Work Program Adoption Process

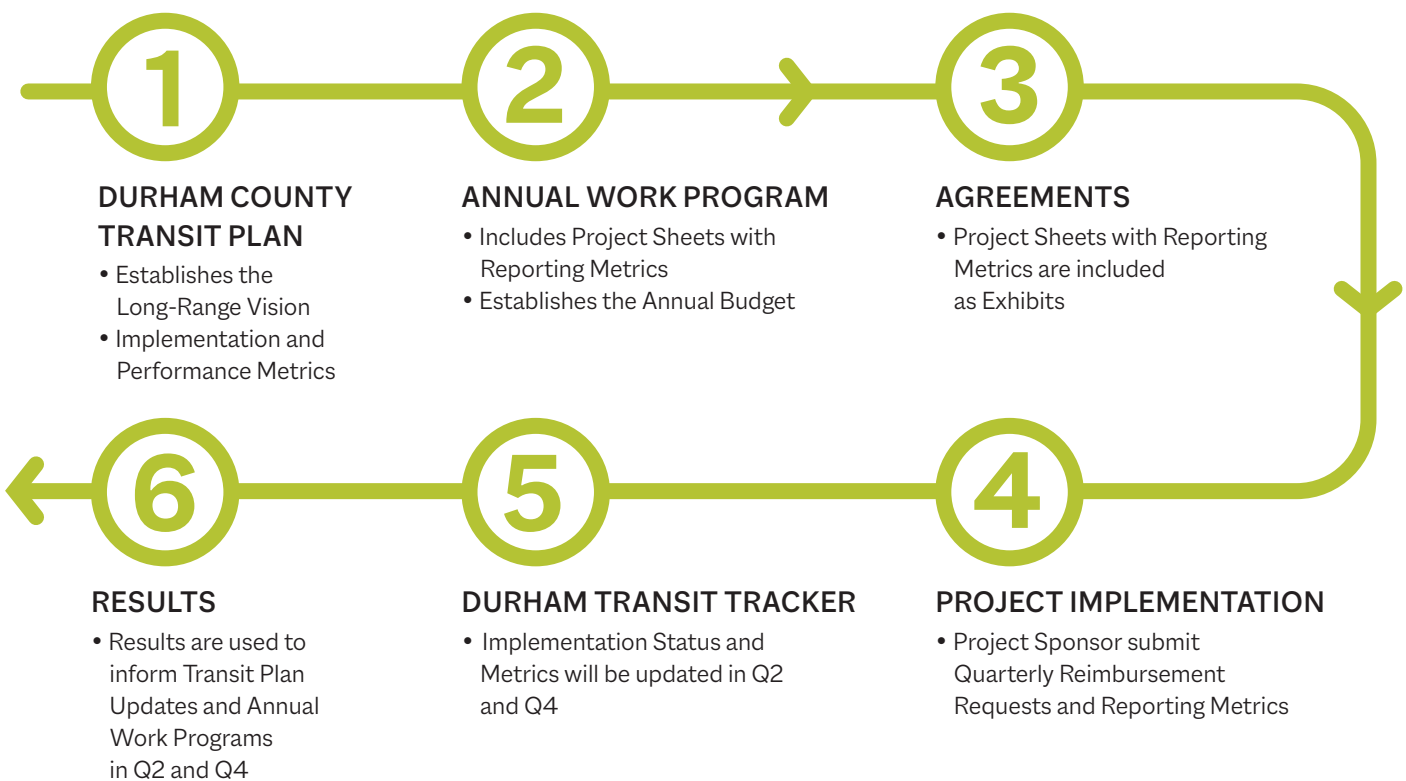

Furthermore, the 2023 ILA established that project sponsors would be required to enter into Multi-Year Capital and Operating Global Agreements. After the adoption of the ILA, a Comprehensive Participation Agreement (CPA) was also developed and approved by Durham County, GoTriangle, DCHC MPO, and the City of Durham that provided further detail on the content of these agreements and set a deadline for approval of the agreements by June 30, 2024, for projects to continue to be eligible for reimbursement. These agreements shall consist of the following:

- Project Sponsor
- Project Scope
- Purpose and Goals
- Boundaries
- Schedule
- Estimated Budget
- Reporting and Performance Standards or Metrics

The Work Program has been designed so that the individual project sheets can serve as the exhibits for the Global Agreements. Using this template allows for an efficient process for the approval of the agreements and enhances the transparency and accountability of project sponsors to the governing boards and public.

In accordance with the 2023 ILA, project sponsors will be required to submit bi-annual project updates that provide information regarding progress towards the implementation and performance metrics included on the project sheets. These reports will be incorporated into Q2 and Q4 updates to the Durham Transit Tracker website that is currently in development.

While this new process and reporting structure is still in development, the Work Program sets up a framework that will allow for more clear, regular, and accessible reporting on expenditures and project implementation.

2023 DURHAM COUNTY TRANSIT PLAN

The Work Program strategically programs transit revenues to projects that advance the core principles, goals, objectives, and major themes that were recently adopted in the 2023 Durham County Transit Plan.

The first core principle of the Plan is Community Trust, which enables a system of trust through transparency, accountability and by actively engaging residents. Consistent with this principle, this Work Program was developed to provide clearer and more accessible information about projects, the intended outcomes of the projects, anticipated project schedules, and long-term funding implications.

The second core principle is Equity, which prioritizes transit access and investment to several communities including but not limited to minority race and ethnic populations, elderly populations, low-income households, and zero-car households. This Work Program achieves this through consistency with the projects in the adopted Durham County Transit Plan.

While the core principles will guide the Work Program and its commitments to Durham County residents, the associated goals and objectives will provide a clear direction to achieving favorable outcomes for the Work Program. The goals and objectives include:

- Accessibility – Providing opportunities for all users to access transit.
- Connectivity – Providing a well-connected, multimodal transportation network.
- Convenience – Creating reliable transit options and providing dependable information to riders.
- Sustainability – Creating resilient infrastructure to meet the needs of existing and future populations.

The Work Program will also support the four major project themes identified in the Durham Transit Plan. These include:

Improvement of the Current System

- More 15-minute bus service
- Evening and weekend service
- More crosstown routes

More Projects Sooner

- Bus stop improvements
- GoDurham and GoTriangle paratransit (ACCESS) study and improvements
- GoDurham Connect (microtransit) zones

Connecting the Region with Quick and Reliable Service

- Next steps for major projects connecting Durham to the region with fast, reliable transit service
- Better on-time performance of buses
- Transit signal priority for buses

Better Experiences at Stops and Stations

- Bus stop improvements
- Safer access to bus stops
- Transit center improvements

SUMMARY OF FY25-FY40 REVENUES

The Work Program process began with an assessment of the current revenue sources and a projection of available funding. **As compared to the 2023 Durham County Transit Plan, overall revenues have increased by 8% through 2040.**

Per a decision by the GoTriangle Board of Trustees, the Vehicle Rental Fee has been retained by GoTriangle and is not included as a revenue for the FY25 Work Program. This is presumed to continue through 2040. Durham County is supportive of ongoing discussions on the Vehicle Rental Fee and desires a regionally consistent outcome.

PROJECTED DURHAM COUNTY TAX DISTRICT REVENUES BY SOURCE (FY25 - FY40)

Figure 5: Projected Durham County Tax District Revenues by Source (FY25 - FY40)

SUMMARY OF FY25-FY40 EXPENDITURES

The Work Program expenditures described below are divided into the detailed project types that were developed during the 2023 Durham Transit Plan.

PROJECTED DURHAM COUNTY EXPENDITURES BY PROJECT TYPE (FY25 - FY40)

Figure 6: Projected Durham County Expenditures by Project Type (FY25 - FY40)

FINANCIAL ASSUMPTIONS

The Work Program maintains the financial model assumptions approved in the 2023 Durham County Transit Plan, except for the removal of the Vehicle Rental Fee and a 12% increase in GoTriangle's Cost Per Hour from FY24 to FY25.

Input	Assumptions
Sales Tax Compound Annual Growth Rate - Durham County	Consistent with Moody's Forecast
Vehicle Rental Fee Annual Growth Rate	Retained by GoTriangle Board
Vehicle Registration Fee Annual Growth Rate	1.50%
Inflation Rate - Capital Cost Vehicle / Capital Cost Infrastructure / Operating Cost	3.10% / 4.00% / 2.50%
Target Minimum Debt Service Coverage Ratio	1.25
GoDurham (FY25 cost per hour)	\$147.51
GoTriangle (FY25 cost per hour)	\$164.80
Durham County GoDurham ACCESS (FY25 actual cost per trip)	\$40.00
Minimum Operating Fund Balance	3 months (90 days)
Capital Projects Fund Balance	5.00% of 10-Year Capital Projects
Excess Capital Liquidity	\$10 million

Fast Reliable Regional Service

The Work Program maintains a financial model placeholder for a major capital project focused on providing fast, reliable regional service connecting Durham to the region. As the specifics of the project are not defined at this time, the Work Program maintained the assumptions of the Durham County Transit Plan. However, the timeline was extended to reflect a more realistic project delivery process. A 4% annual capital cost escalation was applied to the programmed funding reflecting the extended timeline.

FY 25-29: Planning or Grant Matching Placeholder, \$500,000/year

FY 30-34: Construction

FY 35: Operations Begin

Several planning projects are already funded and underway to advance this effort. Work on the following projects will continue in FY25:

DCHC MPO: Bus Speed and Reliability Study

Durham County: NCDOT FAST 2.0 Study Contribution

Durham County: FRA Railroad Crossing Elimination Planning Study

Furthermore, in Fall 2023 The Durham Transit Plan was identified as the local match toward a USDOT grant application submitted by NCDOT for the construction of intercity passenger rail platforms at RTP. If this project is funded or proceeds through another means, the Work Program will be amended to reflect this contribution.

FY25 PROJECTS

Continuing Projects

The Work Program includes many operating projects that are a continuation of projects in prior Work Programs. Operating projects include a standard 2.5% annual cost escalation. These projects generally include the following categories and full details are available in the project sheets:

GoTriangle	Tax District Administration
GoTriangle	Transit Plan Administration
Durham County	Staff Working Group Administration
Durham County	Transit Plan Administration
DCHC MPO	Transit Plan Administration
GoTriangle	Transit Operations
City of Durham	Transit Operations

Capital projects that were funded in prior Work Programs and are expected to continue development in FY25 with no change in scope or funding include:

DCHC MPO	Bus Speed and Reliability Study
Durham County	FAST 2.0 Study Contribution
GoTriangle	Durham Bus Stop Improvements Program
GoTriangle	Nelson Road Bus Operations and Maintenance Facility Expansion
GoTriangle	Regional Transit Center
GoTriangle	Vehicle Acquisition and Replacement
City of Durham	Fayetteville (Route 5) Transit Corridor
City of Durham	Holloway (Route 3) Transit Corridor

Updated Projects

The Work Program also includes continuation projects that had updated cost or scope elements. Those projects include:

City of Durham	Transit Project Implementation Staffing – increase of \$88,348 to Reflect 50% of the actual salary and benefits costs for the three positions.
City of Durham	Durham Station Improvements Project – additional \$7.28M
City of Durham	GoDurham Connect Pilot – the City of Durham will become the project sponsor for the microtransit projects. A new service delivery model will be proposed.
City of Durham	CAD/AVL project – increase for additional system reporting
City of Durham	Village Mobility Hub - Design will continue in FY25. \$1.5M additional is now budgeted in the CIP for future year construction.
GoTriangle	Transit Planning Support Services – fund 50% of the Regional Transit share of the Triangle Regional Model Regional Model costs at a 70/20/10 split for FY25 only
GoTriangle	Transit Operations - 12% Increase in Cost Per Hour
Durham County	ACCESS – increased funding to reflect rising usage and costs
Durham County	East Durham Grade Crossing Study - Reflecting the award of the FRA grant. Durham County will become the project sponsor and the project is now separated out from the Commuter Rail Project Development project.

New Projects

The Work Program includes several new Operating projects to reflect the priorities for the Short-Range Transit Plan. The Short-Range Transit Plan included further analysis and public input on how to redesign the bus system to be more efficient and effective. This

resulted in many changes to the 2023 Durham Transit Plan projects. However, most changes are still consistent with the overall goals and intention of the plan to expand and enhance service, increase frequency, provide more cross-town routes, provide more reliable service, etc. The 2023 Durham Transit Plan programmed substantial operating increases in the early years of the plan and the FY25 new Operating requests are within this budget.

City of Durham:

- Five (5) new Route Improvement projects including Route 7, 6, 9, 11 and 16
- New Service frequency in evenings, Sundays, and holidays on Routes 6, 7, 8, and 12B which ensures all GoDurham Routes operate every 30-minutes during those time
- Frequency improvements on Route 3 and 3B (to be renamed Route 16) starting in January 2025
- New Crosstown Route 13 in East Durham connecting NCCU, Durham Tech, McDougal Terrace, Northeast Central Durham, and the Village Shopping Center.

The Work Program includes new capital projects that relate to projects in the 2023 Transit Plan.

City of Durham:

Two Access to Transit projects have been added to the Work Program that utilize previously approved funding and new funding. The total funding is consistent with the overall Access to Transit funding anticipated in the 2023 Transit Plan. The projects are construction of a sidewalk on Junction Road from NC 98 to Bentwood Park and construction of a sidewalk on Horton Road from Guess Drive to Sugarwood Place. In FY25, the design of both projects will continue.

City of Durham:

The Work Program includes two new projects for expansion of GoDurham's Fay Street Bus Maintenance Facility and construction of a new Paratransit Maintenance Facility. While the Transit Plan programmed a total of \$5M for these projects,

the full cost for Fay Street is \$50M and \$10M for Paratransit. To be more competitive for federal grants, the Work Program includes an assumption of 50% funding for each project with federal grants and/or City of Durham funding necessary for the remainder. In FY25, design will commence for the Fay Street Facility and land acquisition and design will commence for the Paratransit Facility.

Lastly, two new projects that were not previously programmed in any Work Program or the 2023 Plan are included in this draft document for Board and public feedback.

- **City of Durham:**

Direct Investment in Mobility Equity Program – This project re-programs funding for the Youth GoPass and GoDurham Fare Collection Improvements to the City to partially offset the cost of fare free service for FY25. The City has not decided whether to remain fare free long-term and additional funding sources are necessary to fully fund fare free service.

- **GoTriangle:**

Low Income Fare Program – This project adds new funding for a regional program to provide free GoPasses for riders who receive public assistance. It would be a long-term project with costs split 70/20/10 across the three County Transit Plans and reimbursed on the actual usage of the passes.

FY25 TRIANGLE TRANSIT TAX DISTRICT: DURHAM COUNTY

Revenues	
Tax District Revenues	
Article 43 Half-Cent Sales and Use Tax	\$ 43,000,000

Tax District Administration: Financial Oversight Staff

21GOT_AD1 | Tax District Administration | Staffing

Financial oversight staff to the Durham Transit Plan for a total of 1.0 FTE.

In FY25 the roles will continue to improve financial policies, provide financial analysis for the new Transit plan development including the commuter rail project, and process quarterly reimbursements and reporting. The 1.0 FTE will also be responsible for producing annual operating and capital budgets and ordinances (and amendments thereto), updating the Durham Transit financial plan/model, annual financial reports, coordinating integration of proposed plans into the budget, monitoring spending to ensure the Durham transit budget stays balanced. The team will also navigate and lead the process of debt issuance, investing Durham transit revenue and the year-end financial audit for the Durham Transit Plan.

Transit Plan Administration: Performance Data Processing and Visualization Tool

21GOT_AD14 | Transit Plan Administration | Administrative Expenses

GoTriangle utilizes bus service performance data processing and visualization tools that enable staff to understand bus performance data efficiently and effectively. These tools enable the following types of analyses listed below:

- Bus speeds by route segment in addition to dwell times, allowing identification and prioritization of capital projects to improve bus speed and reliability
- Bus run times by route segment and timepoint, enabling Service Planners and schedulers to more precisely schedule buses to adapt to travel conditions throughout different service windows throughout the day
- Bus on-time performance by route and trip, enabling deeper transparency into GoTriangle and GoDurham’s operating performance for staff and the public

These tools are used by GoTriangle for their own regional services as well as for GoDurham’s service. All three analysis tools are useful for both internal staff functions in addition to public-facing engagement. All three types of analysis tools are useful in evaluating the operating time and cost benefits of future transit corridor and facilities projects.

Transit Plan Administration: Project Implementation Staff

21GOT_AD3 | Transit Plan Administration | Staffing

GoTriangle will allocate 4.425 FTE for project implementation activities for the Durham Transit Plan.

In FY25, this team will manage and execute planning, design, construction management, procurement, and contract administration activities for GoTriangle's bus facilities and bus stop amenities programs, as well as GoDurham's bus stop amenities program.

Additionally, they will also participate in the Bus Transit Corridor - Speed and Reliability Study Part 1, capital planning, and support activities for the Durham Bus Plan update and commuter rail related activities.

Specific tasks include but are not limited to the following:

- **Budget/Procurement/Contract Administration** - includes budget development and monitoring, quarterly reporting, coordination with DBE Program Officer, monitoring compliance with federal, state, and local contract requirements, procurement and management of consultants and contractors.
- **Planning and Project Development** - includes the planning/prioritization for bus stop, park-and-ride, and transit center improvements.
- **Design/Engineering/Architecture/Construction** - includes field investigations, feasibility analysis, design management, construction inspections, project management/coordination, technical support for bus stop, park-and-ride improvements, CRT and Bus Transit Corridor studies, and major facilities projects.
- **Project Coordination** - includes managing coordination and fostering timely conflict resolution with GoTriangle's partners, as well as coordination with regulatory agencies for federally funded projects.

Transit Plan Administration: Legal and Real Estate – Support Staff

21GOT_AD4 | Transit Plan Administration | Administrative Expenses

Funds will be allocated to GoTriangle for 1.2 FTE of Legal and Real Estate support staff and miscellaneous administrative and related expenses to the Durham Transit Plan. These tasks include but are not limited to:

- Greater Triangle Commuter Rail project, including cost-share negotiations and agreements, early risk-management work, development of agreement and approval matrices, legal templates, and early legal work related to host and operating railroads
- Interlocal Agreements related to Transit Plan administration
- Real estate management and FTA compliance activities for the GoTriangle properties located along the CRT corridor
- Managing appraisals and potential disposition of properties acquired for the regional rail project and DOLRT
- Managing real estate acquisition activities for projects assigned to GoTriangle in the Durham Transit Work Plan including Durham Bus Stop Improvements and site-specific facilities projects.
- Addressing miscellaneous matters related to GoTriangle’s property interests in Durham County, including compliance with FTA requirements where applicable
- Addressing facilities matters at GoTriangle’s regional admin and operations/maintenance facilities
- Assist with the management and strategic planning of regional park and ride program, proposed RTC relocation, and other infrastructure projects
- Other property issues requiring real estate acquisition, disposition, and management
- Property appraisals, Property maintenance/repairs, Paratransit lease
- Legal Consulting expenses to include but not limited to debt issuance, capital, and operating project support

20DCI_TS3 | Transit Operations | Bus Service

Route 8 will always operate every 30 minutes, Mon-Sat 5:30am-12:30am and on Sundays/Holidays from 6:30am-9:30pm. It will serve Southside, NCCU, Durham Tech, McDougald Terrace, Riddle Rd, and Cornwallis Rd as defined by the GoDurham short range transit plan recommendations (anticipated to be completed by Dec 31, 2023). Route 12 will no longer serve Riddle and Cornwallis but will stay on NC-55.

The Durham County Transit Plan funds some of the daytime 30-minute service (from the Route 12), evening/Sunday 30-minute service, and later service on Sundays/Holidays from 7PM-9PM.

In FY25, the new service is an evening/Sunday 30-minute service (full year) and the route extension to serve Riddle and Cornwallis (half year).

Route 3 Improvements

23DCI_TS2 | Transit Operations | Bus Service

Starting in January 2025, Route 3 operates every 15-minutes until 7PM Mon-Sat and every 30 minutes in evenings and Sunday/holidays. Service is provided during these hours: Mon-Sat 5:30am-12:30am and on Sundays/Holidays from 6:30am-9:30pm. The route serves Durham Station, Holloway St, Village Shopping Center, Hardee St, and Walmart at Glenn View Station.

Route 13 Improvements

23DCI_TS3 | Transit Operations | Bus Service

Starting January 2025, a new Route 13 crosstown will connect North Carolina Central University with The Village, a future transit center in East Durham. With this new service, residents of East Durham will have direct connections to education and employment as well as the frequent transit corridors on Holloway St and Fayetteville St. These service improvements are consistent with projects in the Durham Transit Plan. Service will run every 30-minutes from 5:30am-7:30pm Mon-Sat and from 6:30am-7:30pm on Sunday.

PROJECT AT A GLANCE

Route 14 Improvements

24DCI_TS01 | Transit Operations | Bus Service

In FY25, this project will implement the Route 14 crosstown service from Duke Regional Hospital to Duke/VA Medical Center, which were part of the project included in the FY25 work program. Route 14 will serve Duke Clinics on Trent Dr, Duke/VA Medical Centers, Hillandale Rd, Horton Rd, Foxfire Apartments, North Duke Crossing, and Duke Regional Hospital. Riders can transfer from Route 14 to Route 4 and 9 at Duke Regional Hospital or North Duke Crossing Shopping Center. These service improvements are consistent with projects in the Durham Transit Plan.

Direct Investment in Mobility Equity (DIME) Grant

25DCI_TS12 | Transit Operations | Bus Service

The Durham County Transit Plan (2023) identifies Equity as a core principle, with the aim to prioritize transit access and investment for Environmental Justice (EJ) communities, specifically low-income households. This grant, along with other funding contributions, could enable GoDurham to remain fare-free in FY2025 and beyond. The 2022 onboard survey results show that 87% of GoDurham riders are low-income, with incomes below \$35,000/yr. The grant would contribute \$0.10 for each low-income bus trip provided by GoDurham, using 87% of the first 4.3 million unlinked passenger trips (3.7 million trips), as measured by automatic passenger counter (APC), until funding is exhausted. According to the Transit Cooperative Research Program (TCRP), in addition to equity benefits, eliminating fare collection reduces dwell times at bus stops, cutting expected delay by 2.25 seconds per passenger (more than 50%) when compared to cash collection or 1 second per passenger when compared Smart Card usage (TCRP 165 Exhibit 6-4). These dwell time delays degrade bus speed and reliability, a critical goal of investments throughout the Transit Plan.

Route 9 Improvements

25DCI_TS18 | Transit Operations | Bus Service

Route 9 always operates every 30-minutes, Mon-Sat 5:30am-12:30am and on Sundays/Holidays from 6:30am-9:30pm. The route serves North Durham from Durham Station, Club Blvd, Dearborn Dr, Oxford Manor, and Duke Regional Hospital. The route will be extended to serve Danube/Hebron. The route will implement the short-range transit plan recommendations to create a route 9G and 9D that each always operate once an hour.

The Durham County Transit Plan funds 30-minute service at night and Sundays, later service on Sundays and holidays (7PM-9PM), and service extension to Danube/Hebron (shown as on Route 4, although the SRTF recommendations put this service on the Route 9)

In FY25, this project will provide 30-minute evening/Sunday service and expand service to Danube/Hebron.

Route 16 Improvements

25DCI_TS20 | Transit Operations | Bus Service

Starting in January 2025, Route 16 will always operate every 30-minutes, Mon-Sat 5:30am-12:30am and on Sundays/Holidays from 6:30am-9:30pm. The route serves East Durham from Durham Station to the Village Shopping Center via Holloway St and continues east along Highway 98 to Mineral Springs Rd, Freeman Rd, and Ross Rd.

Route 16 replaces Route 3B service, which always operates once an hour. This project provides additional funding for service frequency. Route 16 operates in the same corridor as Route 3 between Durham Station and the Village. It will also connect with the new Route 13 at the Village, so that riders from East Durham can get to NCCU and Durham Tech without travelling downtown to Durham Station.

The Durham County Transit Plan funds 30-minute service at night and Sundays, later service on Sundays and holidays (7PM-9PM).

In FY25, this project funds additional hours on Sundays from 7PM-9PM on Route 3B from July-Dec 2024 and the new Route 16 from Jan-Jun 2025, which includes additional service frequency during the day, eve, and Sun service and Sunday service from 7PM-9PM.

GoDurham Connect

25DCI_TS25 | Transit Operations | Bus Service

The City of Durham will provide microtransit service aimed to provide first-mile/last-mile connections to GoDurham fixed-route service and general community connectivity in Eastern Durham and Northern Durham zones. Microtransit improves accessibility for students, minorities, and riders with disabilities that live in areas that lack the population and job density to support fixed-route service. The project for FY25 assumes the transition of project sponsorship from GoTriangle to City of Durham and that Lyft is the service provider.

PROJECT AT A GLANCE

Durham County Employment and Education Access

24DCO_AD10 | Transit Operations | Bus Service

To serve the needs of emerging employment centers in unincorporated areas of Durham County as well as employers identified for priority by the Durham County Board of County Commissioners, funding is requested to administer pilot programs to encourage the use of transit, carpool, vanpool, and other non-single-occupant-vehicle modes referenced collectively as transportation alternatives (TA). These programs may include outreach to employers, marketing of TA, subsidies to encourage use of TA, technical assistance to identified employers and employees for commute planning, travel training, transportation demand management, and other purposes.

Route DRX Improvements – Durham-Raleigh Express

20GOT_TS7 | Transit Operations | Bus Service

GoTriangle will continue to provide additional trips on the Durham-Raleigh Express (DRX) between Downtown Durham, Duke University/VA Medical Center and Downtown Raleigh.

The project matches the Wake County investment for Route DRX supporting additional trips to increase frequency to every 15-30 minutes and span. Improving service within the Durham-Raleigh corridor supports regional connectivity. In past years, investments in more DRX service have resulted in ridership growth and GoTriangle often receives requests from the public for more service at more times of the day on the DRX. If this request is not funded, we may see crowding within the corridor and reduced ridership.

Low Income Fare Pass

21GOT_0014 | Transit Operations | Bus Service

Due to the onset of the COVID pandemic in 2020, GoTriangle has remained fare free. As GoTriangle prepares to return to fares in FY25, a Title VI equity analysis was completed to evaluate the effects of the fare change on minority and low-income populations and to identify mitigation strategies if necessary.

GoTriangle is requesting funding allocation to provide zero fare passes for low-income qualifying individuals beginning in FY25. GoTriangle will work with the Durham County Staff Working Group to identify qualifying measures and ensure necessary policies and procedures are in place prior to July 1, 2024. GoTriangle is currently completing a study that will provide a framework for a low-income fare program. This framework will be presented to the Durham County Staff Working Group and can be used to assist in further developing policies and procedures for the low-income fare program. The total amount funded from the Durham Tax Revenues, will offset fares that would have been collected by GoTriangle, in addition to purchasing the supplies needed for this program. The funding allocation will be monitored and evaluated as other providers make decisions regarding fares. This allocation should be available to all Durham County transit providers who return to fares in the future. The financial information included in this sheet is an estimate to be used for budget purposes. GoTriangle and the Durham County Staff Working Group will work on developing administrative needs for the project and adjust financials as needed.

Youth GoPass

21GOT_001 | Transit Operations | Other Bus Service

For youth ages 13-18, transit agencies across Durham, Wake and Orange County will continue to offer a “Youth GoPass” program. These fare passes are issued by GoTriangle, GoDurham, GoRaleigh, or GoCary with valid K-12 School ID Cards, or with transit agency issued identification cards.

GoTriangle, GoDurham GoRaleigh, and GoCary in partnership with the respective County, will continue to work with schools along the County’s triangle bus network to issue the passes. Passes will also continue to be available to those with a valid ID at GoDurham Station, GoRaleigh Station, the Town of Cary Finance Department, the GoTriangle Regional Transportation Center, public libraries, and regional centers.

This project covers the cost of offsetting fares that would have been collected by GoTriangle in the county share of routes, in addition to purchasing the supplies needed for this program. The estimated cost is an allocation of the GoTriangle - Durham share of Youth GoPass boardings in Durham County.

Fare Collection Improvements

21GOT_002 | Transit Operations | Other Bus Service

This project will cover the annual costs associated with updated mobile ticketing technology for GoTriangle buses.

This project request also allocates a portion of hold harmless against any reduction of fare revenue due to the implementation of this uniform fare strategy.

The regional fare-working groups priorities include:

1. Improving Pass Distribution and Sales
2. Balance Revenue and Ridership Goals
3. Improve the Passenger Experience
4. Improve Regional Coordination
5. Make Transit an Affordable Option
6. Explore New Fare Technologies

These earmarked funds will be estimated and are dependent on the final methodology developed by a Fare Working Group.

Woodcroft Park and Ride Lease

24GOT_TS1 | Transit Operations | Other Bus Service

Leased spaces at Woodcroft shopping center to support existing and new transit riders on route 805. The lease will formalize a previous informal park and ride, that has been discontinued due to the lack of a lease. The start of the lease would be timed to commence with the completion of bus stop improvements that serve the Woodcroft shopping center.

Junction Road – Access to Transit

25DCI_CD13 | Transit Infrastructure | Other Bus Service

A new Pedestrian Pathway along Junction Road, an NCDOT-maintained street stretching from the intersection of Holloway Street to Bentwood Park apartments, covering approximately one-third of a mile. The design aims to enhance safety and provide access to transit options, bus stop improvements, featuring a pathway width of 5 feet, as outlined in the Less Than 2% Concept Plans from the Better Bus Project. The project integrates various tasks such as design and permitting, topographic surveys, railroad coordination, right-of-way management, pedestrian facility upgrades, pavement markings, sidewalk enhancements, driveway improvements, and other necessary upgrades. The objective is to promote pedestrian safety, enhance accessing transit facilities, and other supporting necessary improvements within the designated area.

New Regional Transit Facility (Durham County Share)

22GOT_CD1 | Transit Infrastructure | Other Bus Service

The FY25 request includes phase II of the project, which consists of land acquisition, design, and construction of a new regional transit center (RTC).

The completed feasibility study includes an evaluation of the current facility and identification of necessary passenger amenities and infrastructure improvements, and a feasibility study to evaluate the potential new locations for the RTC, taking into consideration current and future planned routes, land use, supply, and price. This study is being used to inform the location and design of phase II. The feasibility study was funded by county transit plans in Wake, Durham, and Orange counties.

Vehicle Acquisition and Replacement

22GOT_VP1 | Vehicle Acquisition | Other Bus Service

Durham Transit share of the GoTriangle level buying bus strategy. GoTriangle will serve as project sponsor as these new buses will replace existing buses that have reached their useful life. There has been an increase in maintenance costs by maintaining high mileage vehicles and a reduction in reliability. Vehicle purchase requests correspond to the fleet replacement plan that has been presented in the past.

Regional Fleet and Facilities Study Implementation – Nelson Road

23GOT_CD2 | Transit Infrastructure | Other Bus Service

The project sheet requests funding for phases of Design and construction required to operate services identified in the Transit Plan.

The fleet and facilities study evaluated constraints and needs for maintenance, storage, fueling and servicing capacity as well as work-flow efficiency at the GoTriangle Nelson Road bus operations and maintenance facility. The outcome of this study will include site selection, schematic design, and cost estimates for a new and/or expanded facility. The study included a regional coordination element to identify opportunities for shared facilities for vehicle storage, servicing and/or repairs. The study has identified onsite expansion and renovation of the current Nelson Road facility as the most cost-effective option to address current needs and provide opportunity to address future fleet needs over the course of the useful life of the renovated facility: 40+ years. The completed study will include phases and associated costs of handling the fleet required to operate the services identified in the Bus Plan.

Durham Bus Stop Improvements Program

20GOT_CD2 | Transit Infrastructure | Other Bus Service

This project is a multi-year improvement program for GoDurham and GoTriangle bus stops in Durham County. GoTriangle prioritizes stop improvements based on factors such as ridership, safety, environmental justice communities, and access to destinations for youth, seniors, and persons with disabilities.

The program covers several categories of improvement projects, including:

- **GoDurham and GoTriangle Bus Stop Improvements:** This portion of the program is for the design and construction of ADA, accessibility, and amenities improvements which can include landing pads, sidewalk connections, curb ramps, and crosswalks. Amenities can include seating, shelters, and lighting.
- **Bus Stop Amenities for Partner Projects:** This portion of the program will provide funding for GoTriangle to construct bus stop amenities to be included in City- and NCDOT-administered sidewalk, streetscape, trail, and roadway projects.
- **Quick-Build Amenities:** This portion of the program provides for the purchase and installation of quick-build amenities, including free-standing seating, solar lights, real time signage, trash cans, and shelter replacements at GoDurham and GoTriangle stops. Quick-build amenities include those installations and improvements that do not require the full design and construction approval process.

Making these types of improvements connects GoDurham and GoTriangle customers with safe, comfortable, and accessible locations to board and disembark from the bus.

East Durham Grade Crossing Study

25DCO_C15 | Capital Planning

The East Durham Grade Crossing Study will explore opportunities for improving safety and mobility at three railroad crossings: S. Plum Street, S. Driver Street, and Ellis Road. Over the past 25 years, there have been 19 crashes causing three fatalities and nine injuries at these crossings, which are in a historically disadvantaged area of Durham.

The project will include planning, preliminary design, and NEPA review along with an equitable community engagement effort to facilitate the selection of a preferred solution that is responsive to the needs of the residents and businesses of this area.

Anticipated benefits include the avoidance of pedestrian, bicycle, and vehicle crashes, improved air quality from reduced idling emissions, improved emergency response, and improved trip reliability, among others.

Completing this study would position any recommended changes to be submitted for future federal funding opportunities for final design and construction, and for future rounds of STI to seek state funding.

GoDurham Bus Operations and Maintenance Facility (Fay Street)

25DCI_CD26 | Transit Infrastructure | Other Bus Service

In alignment with the Durham Transit Plan’s focus on expanded service and fleet growth, the GoDurham Bus Operations and Maintenance Facility (BOMF) must adapt to support increased capacity and operational efficiency. This project proposes a strategic expansion and optimization plan to address current space constraints, ensuring the BOMF can effectively accommodate a fleet increase, span expansion, and transition to electric vehicles. By prioritizing efficient parking, maintenance, and operational areas, the project will enhance service reliability, optimize resource utilization, and improve staff well-being, ultimately contributing to the successful implementation of the Durham Transit Plan and enhancing the City’s public transportation system.

Durham Station Improvements

23DCICD02 | Transit Infrastructure | Other Bus Service

The project will expand the shelter to cover 80% of the waiting area from the weather and host solar panels, additional seating, new restrooms and a customer service security kiosk. These new amenities respond to rider identified improvements to assist in quick transfers and a better waiting experience. In addition to passenger amenity improvements, 8 additional bus bays, redesigned bus lanes and new pavement will improve transit operations and safety at Durham Station. Space for future electric bus charging will also be provided. The existing site layout is at capacity with existing transit operations and will not be able to accommodate future improvements and service expansion being developed in the Durham Transit Plan. Construction starts in summer 2024 and is scheduled to be completed in summer of 2026.

Access to Transit – Horton Road

25DCICD21 | Transit Infrastructure | Other Bus Service

The Access to Transit project aims to enhance pedestrian safety, upgrade utilities, and improve transit facilities along Horton Road between Sugarwood Place and Guess Road. Using existing 5% Design plans from the Better Bus Project concept plans, titled “BETTER BUS PROJECT, HORTON ROAD FROM SUGARWOOD PLACE TO GUESS ROAD.” The purpose is to ensure pedestrian safety, transit enhancements, and utilities upgrade in the designated area. Design tasks underway include items such as topographic surveys, right-of-way management, pedestrian facility upgrades, pavement markings, 2 RRFB installations, and roadway designs for specified sidewalk locations, sidewalk approximately 1/2 mile in length.

October 2023: The original total cost forecast for Design, Real Estate and Construction is \$360,000. This request is for increasing the budget total to \$708,000, an increase of \$348,000.

The actual Design Cost is \$118,000, an increase from the \$60,000 originally forecasted. The Construction Cost Estimate prepared by the Consultant, based on plans less than 5%, in 2021 was \$280,000. The revised Construction Estimate based on 50% Design Drawings and survey is \$570,000 plus an additional ~10% for CEI of \$60,000.

PROJECT AT A GLANCE

- Agency: City of Durham
- Parties to Project:
- Estimated Total Project Cost: \$770,000
- Budgeted FY25 Costs funded by this Agreement: \$565,000
- Programmed FY26 Costs funded by this Agreement: \$205,000
- Start Date: June 2023
- Anticipated End Date: June 2026

GoDurham Paratransit Maintenance Facility

25DCI_CD25 | Transit Infrastructure | Other Bus Service

The GoDurham Bus Operations and Maintenance Facility (BOMF) currently serves both fixed-route and paratransit operations, approaching capacity limitations as service expansion aligns with the Durham Transit Plan. This project proposes a two-pronged approach: relocating GoDurham ACCESS vehicles, maintenance, and operations staff to a new dedicated facility or alternative solution This frees up space at the current BOMF Fay St to expand parking, maintenance bays, and operational areas for the growing fixed-route fleet (25DCI_CD26). Together, the projects for the paratransit facility and the bus maintenance facility will accommodate the fleet increases to the fixed route service that are anticipated by August 2025, enhance operational efficiency for both services, and ensuring adequate capacity to support the Transit Plan’s goals.

PROJECT AT A GLANCE

- Agency: City of Durham
- Parties to Project: GoTriangle
- Estimated Total Project Cost: \$5,000,000
- Budgeted FY25 Costs funded by this Agreement: \$1,700,000
- Programmed FY26 Costs funded by this Agreement: \$0.00
- Start Date: July 1, 2024
- Anticipated End Date: June 30, 2026
