ORGANIZATION & STAFFING

A Metropolitan Planning Organization (MPO) is the policy board of an organization created and designated to carry out the metropolitan transportation planning process. MPOs are required to represent localities in all urbanized areas (UZAs) with populations over 50,000, as determined by the U.S. Census. MPOs are designated by agreement between the governor and local governments that together represent at least 75 percent of the affected population (including the largest incorporated city, based on population) or in accordance with procedures established by applicable state or local law. When submitting a transportation improvement program to the state for inclusion in the statewide program, MPOs self-certify that they have met all federal requirements.

An urbanized area with a population over 200,000, as defined by the Bureau of the Census and designated by the Secretary of the U.S. Department of Transportation (DOT), is called a Transportation Management Area (TMA). As described in 49 U.S.C. 5303(k), and in recognition of the greater complexity of transportation issues in large urban areas, an MPO in a TMA has a stronger voice in setting priorities for implementing projects listed in the transportation improvement program and are responsible for additional planning products. The planning processes in MPOs in TMAs also must be certified by the Secretary of DOT as being in compliance with federal requirements.

The Durham-Chapel Hill-Carrboro Metropolitan Planning Organization (DCHC MPO) was established in 1980. MPO has 18 members, and meets monthly on the second Wednesday of the month. Our Technical Committee (TC) has 31 members, and meets monthly on the fourth Wednesday of the Month. Please refer to *Appendix E* for lists of current MPO Board and TC members with race, gender, and affiliation included.

ENVIRONMENTAL JUSTICE (EJ)

In 1994, President William Jefferson Clinton issued Executive Order (EO) 12898, Federal Actions to Address Environmental Justice (EJ) in Minority Populations and Low-Income Populations. To comply with the EO, federal agencies developed EJ guidelines for their funding recipients, including Federal Highway Administration (FHWA) Order 6640.23A. Accordingly, the DCHC MPO will make achieving EJ part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health and environmental effects of its programs, policies, and activities on minority populations and low-income populations.

EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation and enforcement of environmental laws, regulations and policies. The three fundamental EJ principles that guide USDOT (affiliated) actions are:

- To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including interrelated social and economic effects, on minority and low-income populations.
- To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.
- To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.

To achieve EJ, our programs will be administered so as to identify and avoid disproportionately high and adverse effects on minority populations and low-income populations by:

1. Identifying and evaluating environmental, public health, and interrelated social and economic effects

of our programs, policies and activities;

2. Proposing measures to avoid, minimize and/or mitigate disproportionately high and adverse environmental and public health effects, and interrelated social and economic effects, and providing offsetting benefits and opportunities to enhance communities, neighborhoods, and individuals affected by our programs, policies and activities, where permitted by law;
3. Considering alternatives to proposed programs, policies, and activities, where such alternatives would result in avoiding and/or minimizing disproportionately high and adverse human health or environmental impacts to minority and/or low-income populations; and
4. Eliciting public involvement opportunities and considering the results thereof, including soliciting input from affected minority and low-income populations in considering alternatives.
5. Adding an EJ section to plans and studies, such as Long Range Plans, CTP, MTP, TIP, project development/NEPA, sub-area, Public Involvement Plans, and Corridor Studies.
6. EJ analyses will be conducted to determine if our programs, policies, or activities will result in disproportionately high and adverse human health and environmental effects on minority populations and low-income populations. EJ applies to our policies, such as where public meetings will be held, and our projects, such as when we plan to construct or expand a facility. Thus, we will look at various alternatives and seek input from potentially affected communities before making a final decision. Demographic data will be collected to document public involvement in the decision-making process. EJ analyses will remain on file indefinitely, and copies will be provided to NCDOT, upon request, during compliance reviews or complaint investigations. (See *Appendix G – Tables for Race/Ethnicity and Poverty*)

DATA COLLECTION/ANALYSIS/ REPORTING

Data collection, analysis and reporting are key elements of a successful Title VI enforcement strategy. To ensure that Title VI reporting requirements are met, DCHC MPO will collect and maintain data on potential and actual beneficiaries of our programs and services. This section contains relevant population data for our overall service area. The data provides context for the Title VI Nondiscrimination Program and will be used to ensure nondiscrimination in public outreach and delivery of our programs. Please refer to See *Appendix G* for

demographic tables on Race & Ethnicity, Age & Sex, Disability, Poverty, and Household Income.

POPULATION LOCATIONS

Recipients of FHWA funds are required to identify the characteristics and locations of populations they serve, particularly by race/ethnicity, poverty and limited English proficiency. We will document this narratively or through maps that overlay boundaries and demographic features on specific communities, and provide this information to NCDOT, upon request. (See *Appendix H – Demographic Maps*)

LIMITED ENGLISH PROFICIENCY (LEP)

Limited English Proficient (LEP) persons are individuals for whom English is not their primary language and who have a limited ability to read, write, speak, or understand English. These individuals reported to the U.S. Census Bureau that they speak English less than very well.

To comply with USDOT's LEP Policy Guidance and Executive Order 13166, this section of our Title VI Plan outlines the steps Durham-Chapel Hill-Carrboro Metropolitan Planning Organization (DCHC MPO) will take to ensure meaningful access by LEP persons to all benefits, services and information provided under our programs and activities. A four factor analysis was conducted to determine the LEP language groups present in our planning area and the specific language services that are needed.

FOUR FACTOR ANALYSIS

This Four Factor Analysis is an individualized assessment that balances the following four factors:

1. The number or proportion of LEP persons eligible to be served or likely to be encountered by a program, activity, or service of the recipient or grantee;
2. The frequency with which LEP individuals come in contact with the program;
3. The nature and importance of the program, activity, or service provided by the recipient to people's

lives; and

4. The resources available to the recipient and costs.

FACTOR #1

The number or proportion of LEP persons eligible to be served or likely to be encountered by the program, activity, or service of the recipient.

This Title VI update requires that the MPO recognize the sub-populations of languages that have either more than 5 % or 1,000 people that speak English less than "very well" including numbers in the Margin of Error. In the Durham-Chapel Hill-Carrboro Metropolitan Planning Organization service area, the largest language subpopulation within the LEP population was that of Spanish speakers who speak English less than "very well." Referencing estimates from the 2015 5-year American Community Survey (ACS), our area has a total of 345,028 people. There are 40,834 Spanish speakers, of whom 22,470 speak English less than "very well", or just over 6% of the total population. Speakers of Chinese that speak English less than "very well" was estimated at 2,925, or 0.85 % of the population, and Korean speakers, while estimated at 914, included a +/-256 person margin of error, for a total of 1,160 Korean speakers. The following tables and charts display LEP information for the Durham Urbanized Area and the three counties that are part of the area (Durham, Orange and Chatham). See *Appendix D* for other demographic information, including maps and US Census data as retrieved from factfinder.census.gov in the preparation of this report.

FACTOR #2:

The frequency with which LEP individuals come in contact with the program.

The DCHC MPO assesses the frequency at which staff has or could possibly have contact with LEP persons. This includes documenting phone inquiries and surveying public meeting attendees. No previous LEP requests have been received thus far. Documentation of LEP requests will be done annually upon implementation of the LEP plan. MPO transit operators also provide outreach to the Spanish population. The MPO provides Spanish translation for public meetings and outreach materials. Arrangements are made to provide translation when requested.

FACTOR #3:

The nature and importance of the program, activity, or service provided by the recipient to people's lives.

The MPO ensures that all segments of the population, including LEP persons, have been involved, or have the opportunity to become involved, in the transportation planning process. The impact of proposed transportation investments on under-served and underrepresented population groups is part of the evaluation process for use of federal funds in three major areas:

1. an annual unified planning work program;
2. a seven-year transportation improvement program;
3. a long-range transportation plan covering 20+ years.

Inclusive public participation is a priority in other MPO plans, studies, and programs as well. The impacts of transportation improvements resulting from these planning activities have an impact on all residents. Understanding and involvement are encouraged throughout the process and the MPO is concerned with input from all stakeholders. Every effort is made to make the planning process as inclusive as possible.

Progress towards project planning and construction under the responsibility of NCDOT is coordinated with the MPO. NCDOT has its own policies to ensure that LEP individuals participate in the project planning. To assess the nature and importance of the programs, activities, and services provided by DCHC MPO to LEP and general community, the DCHC MPO conducted both an internal and external review:

Internal Review

Internally, DCHC MPO staff evaluated programs and services based on the DCHC MPO's function as the regional entity responsible for transportation planning in the DCHC MPO planning area, the potential public interest, and the impact upon the quality of life of the public by DCHC MPO functions. Per evaluation of DCHC MPO programs, documents, and services, it was determined the following documents could be seen as vital documents:

- Metropolitan Transportation Plan
- Transportation Improvement Plan
- Unified Planning Work Program
- Public Involvement Policy

Based on this evaluation and the language assessment in Factor 1 of the Four Factor analysis, the staff will seek partner organizations proficient in Spanish to provide information about DCHC MPO plans and programs. Translation and/or interpretation services, for Spanish and other languages, will be considered upon request and in coordination with partner agencies in the region. Furthermore, public meeting notices would be classified as vital documents requiring translation services. To facilitate the translation process for public meeting notices, the staff will prepare a template for the selected primary LEP language. If any notice or document bears a direct impact toward a localized population that meets or exceeds the LEP Safe Harbor clause, then the notice or document will be considered for translation as described previously, to include translating notices and key information contained within vital documents.

Externally, a public outreach effort within the identified language communities will be conducted. Community groups that work with the Spanish populations will be contacted for their input. In this outreach, the Durham-Chapel Hill-Carrboro Metropolitan Planning

Organization staff will provide community groups a synopsis of what the primary purpose and functions of the DCHC MPO and ask what key issues, programs, services, are and activities they perceive are critical. These will be noted in the transportation planning process and sent forward to the appropriate agency and/or locality as applicable.

MPO transit operators are constantly looking for ways to improve communication and enhanced contact and accessibility with LEP patrons.

Over the past several years, transit officials organized a public work sessions dedicated to LEP patrons who use their systems. Overall, an average 20 people mostly Spanish speaking attended. Others were from French Speaking Southeast Asia and Africa. The purpose of the meetings was to provide the patrons the opportunity to understand the transit system operations and also afford them insight into the language and outreach needs of the group.

Key Ideas from these meetings are summarized as follows:

- The importance of communicating with these groups through their children, most of whom speak both native languages and English.
- Incorporating images into our communications for those who prefer not to read whether it is in English or Spanish.
- Attending major festivals and events with space or booth to attract visitors - can have games and/or giveaways.
- Using the radio to leverage communications. The radio stations are highly listened to while some are at home or on the jobs. We can work with the DJs to promote educational opportunity for public transit. The community looks up to the DJs.
- The introduction of the transit user advocates or ambassadors program as well as introduction of the citizens meetings to afford riders the opportunity to provide input to various service initiatives that may impact LEP communities.

Other initiatives for improving communication with and accessibility for LEP residents are summarized below:

- A staff appearance on local Radio talk shows and community television, whose guest periodically include Spanish leaders in the community to discuss transit access issues.
- Appearance of city staff on Spanish radio, providing project information in Spanish to listeners;
- An information booth with bilingual staff and project information at various communities and municipal events/festivals;
- Spanish advertisements published in local Spanish papers to announce all project public meetings.

Transit Regional Call Centers and LEP Outreach/Awareness (see note)

Transit operators in the Triangle Region teamed up and established a regional consolidated call center for Triangle residents to access transit service information from a single source. This center has been in operation since 2010 and is currently operated by GoTriangle (formerly Triangle Transit). It has several customer service attendants who take live calls and answer patrons questions related to transit services in the Triangle Region. Over the past 5 years calls have more than quadrupled. An increasing number of these calls now come from riders with Limited English Proficiency or LEP group. To assist this group the center constantly has a bilingual (English & Spanish) call takers to assist the largest LEP population in the triangle for the Spanish speaking population.

Over the past 3 years non-English speaking calls have averaged 1% of all calls received, making it imperative for the service to acknowledge the importance of this population group. In the past two years there have been 185 calls originating from non-English speakers of mostly Spanish origin.

In addition to the life or voice response system transit operators and the Call Center periodically administers

surveys asking patrons to indicate if there was other languages that needed to be covered. So far, French has been the only language that has been requested. Since the request came from a single source the individual was directed to a French-Speaking staff for direct assistance.

INTERPRETATION AND TRANSLATION SERVICES

Latino media outlets and television and radio stations, La Conexion, Que Pasa, Univision, Telefutera, La Ley and EL Centro, help provide translation and interpretation services to various MPO agencies and transit operators. These media outlets are typically used to resolve public safety needs, to assist with general interpretation and translation, to provide court-certified interpreters, to communicate with the audibly impaired, or to provide language proficiency testing for public safety personnel.

Further, DCHC MPO member agencies use the aforementioned Latino media sources below to offer interpretation and translation services, mostly in Spanish free of charge to the City.

Bus Operator

Currently, no official data is kept by bus drivers on interaction with LEP passengers. However, there are a number of current fixed route bus operators and Customer Service Representatives who are bilingual and who are constantly called upon to assist in the interpretation of various services to our Hispanic patrons as well as the dissemination of information to the same group.

Paratransit Operators

The paratransit operators use mostly the services of the County Social Services which has translator resources for Hispanic community. The Department also works with churches and with the Latino community organizations within the metropolitan area. Brochures,

announcements and news about our paratransit programs relating to our services are sent to this organization for dissemination of in the inbound calls coming through the our scheduler voice response system are sometimes sent to Spanish speaking customer service staffers. In very rare case do the paratransit system utilize Spanish speaking drivers to provide assistance or by request. This is because 99 percent of the paratransit (demand responsive) clients are English speaking patrons. In very rare occasions when a non-English speaking client asks for a service, our in-house Spanish speaking staff is able to offer that assistance.

Transit Security Police Unit

Transit police officers have interpreters available via the above mentioned services, and there are transit officers with fluent multilingual capabilities in Spanish. Generally, officers are taught limited Spanish phrases in BLET. Very few cases involving LEP patrons are reen countered especially in areas such as drugs, guns, robbery and fighting that demand immediate arrest, very few LEP encounters are recoded.

LANGUAGE ASSISTANCE PLAN

As a result of the above four factor analysis, a Language Assistance Plan (Plan) was required. This Plan represents our commitment to ensuring nondiscrimination and meaningful access by persons who are Limited English Proficient (LEP). This Plan also details the mechanisms we will use to reach LEP persons and the language assistance services we provide. We will provide services to any person, upon request. If an individual is LEP, we will work with the individual to ensure they receive the needed transportation service. Our employees will be routinely oriented on the principles and practices of Title VI and LEP to ensure fairness in the administration of this Plan.

LANGUAGE ASSISTANCE MEASURES

The following general language assistance measures are reasonable and achievable for our organization at this time:

Translating public notices posted in the local paper and at stations, stops, and in vehicles into any languages that meet the safe harbor threshold in Factor 1.

- Vital documents—such as brochures with service times and routes—are translated into Spanish across the entire service area, and available in our facilities, doctor's offices and shopping centers.
- Making a concerted effort to inform LEP persons of available language assistance via staff, broadcast media, relationship-building with organizations, and our website.
- Posting vital bulletin board information and disseminating community surveys in various languages.
- Providing translation and interpretive services when appropriate (upon request or predetermined) at meetings.
- Determining how best to take public involvement to LEP groups directly, including through small group meetings.
- Language line translation services at our call center.
- Where possible, utilizing or hiring staff who speak a language other than English and can provide competent language assistance.
 - We will not ask community-based organizations (CBO) to provide, or serve as, interpreters at our meetings. Relying upon CBOs in that capacity could raise ethical concerns. If a CBO decides (on its own) to translate any materials for its constituents, or bring interpreters it trusts to our meetings, we will not object. That is their right.
- Using language identification flashcards to determine appropriate services.
- Establishing a process to obtain feedback on our language assistance measures.

Written Translation and Oral Interpretation

Vital documents will be translated for each eligible LEP language group in our service area that constitutes 5%

or 1,000, whichever is less, of the population of persons eligible to be served or likely to be encountered. Translated materials will be placed online and in appropriate public (or private) places accessible to LEP persons. The safe harbor provisions apply to the translation of written documents only, and do not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable. When appropriate, translation of any document will be communicated orally in the appropriate language.

In the event that the 5% trigger is reached for a LEP language group that is fewer than 50 persons, written notice will be provided in the primary language of that group of the right to receive competent oral interpretation of vital written materials, free of cost. The most effective method of notice, which could be an ad in the local newspaper or other publication, a radio commercial, or door hangers, will be determined in consideration of the circumstances on the ground and in coordination with LEP community contacts.

Staff Support for Language Assistance

- Our staff (including receptionists and call centers) will be provided a list of referral resources that can assist LEP persons with written translation and oral interpretation, including the Title VI Coordinator and consultants contracted to provide LEP services. This list will be updated as needed to remain current.
- All main offices will have available language assistance flashcards and materials translated into the languages that meet the safe harbor threshold. When encountering an LEP person, staff should present the individual with an iSpeak flashcard and let them choose the language. Do not assume their preferred language. Assistance may be sought from bilingual staff fluent in the identified language before contacting a referral resource. Document the encounter and report it to the Title VI Coordinator.
- Training: All employees will be instructed on our procedures for providing timely and reasonable assistance to LEP persons. New employee

orientation will also explain these procedures to new hires. Staff routinely encountering LEP persons by telephone or in person will receive annual refresher training. All other employees will be reminded of LEP through annual Title VI program acknowledgments and basic Title VI trainings.

Project-Specific LEP Outreach

A project-specific four factor analysis will be conducted for any project or outreach event limited to a specific geographical area (i.e., the project study area or outreach area, respectively). Language assistance will be provided in accordance with the measures already outlined, including translating written materials for each LEP language group that is 5% or 1,000, whichever is less, of the project or outreach area population.

Monitoring and Updating the Language Assistance Plan

Monitoring of daily interactions with LEP persons will be continuous, thus language assistance techniques may be refined at any time. This Plan will be periodically reviewed—at least annually—to determine if our assistance measures and staff training are working. Resource availability and feedback from agency staff and the general public will be factors in the evaluation and any proposed updates. Among other practices, this process will include working with LEP community contacts to determine if our employees are responding appropriately to requests made with limited English or in languages other than English, and observing how agency staff responds to requests, including observing drivers or surveying riders. To the best of our ability, we will attempt to never eliminate a successful existing LEP service. Significant LEP program revisions will be approved or adopted by our board or designated official and dated accordingly. LEP data and procedures will be reviewed and updated at least once every three years.

DISSEMINATION OF TITLE VI INFORMATION

In accordance with 23 CFR 200.9(b)(12) and 49 CFR 21.9(d), Durham-Chapel Hill-Carrboro Metropolitan Planning Organization will utilize community outreach and public education to disseminate Title VI information to our employees, contractors, sub-recipients and the general public. Reasonable steps will be taken to make the public aware of their rights and our obligations under Title VI through, including, but not limited to:

- Visibly posting our Title VI Policy Statement in public areas at our facilities, on our website, at our meetings, and prominently in any documents and reports we distribute;
- Placing notices in newspapers and publications with a large circulation among minority groups in the general vicinity of projects and activities. Ads in newspapers and other publications shall include the following:
“Durham-Chapel Hill-Carrboro Metropolitan Planning Organization operates without regard to race, color, national origin, limited English proficiency, sex, age or disability. For more information on our Title VI program, or how to file a discrimination complaint, please contact Vacant xxx-xxx-xxxx; xxxx.yyyy@durhamnc.gov.”
- Translating information into languages other than English that meet the LEP safe harbor threshold;
- Incorporating Title VI language into our contracts and agreements (See *Appendix A* for Title VI Contract Language); and
- Ensuring any contractors and sub-recipients we have also disseminate Title VI information.

Please refer to our Public Involvement Plan (PIP) for additional outreach methods we employ to comply with Title VI. Our PIP can be found here: www.DCHCMPO.org.

PUBLIC INVOLVEMENT

Effective public involvement is a key element in addressing Title VI in decision-making. This Public Participation Plan describes how Durham-Chapel Hill-Carrboro Metropolitan Planning Organization (DCHC MPO) will disseminate vital agency information and engage the public. We will seek out and consider the input and needs of interested parties and groups traditionally under-served by transportation systems who may face challenges accessing our services, such as minority and limited English proficient (LEP) persons. Underlying these efforts is our commitment to determining the most effective outreach methods for a given project or population.

General public involvement practices will include:

- Expanding traditional outreach methods. Think outside the box: Go to hair salons, barbershops, street fairs, etc.
- Providing for early, frequent and continuous engagement by the public.
- Use of social media and other resources as a way to gain public involvement.
- Coordinating with community- and faith-based organizations such as the Hispanic Liaison, educational institutions, and other entities to implement public engagement strategies that reach out specifically to members of affected minority and/or LEP communities.
- Providing opportunities for public participation through means other than written communication, such as personal interviews or use of audio or video recording devices to capture oral comments.
- Considering radio, television, or newspaper ads on stations and in publications that serve LEP populations. Outreach to LEP persons could also include audio programming available on podcasts.

PUBLIC NOTIFICATION

We will inform people of their rights under Title VI

and related authorities with regard to our program. The primary means of achieving this will be posting and disseminating the policy statement and notice. Additional measures may include verbally announcing our obligations and the public's rights at meetings, placing flyers at places frequented by targeted populations, and an equal opportunity tag-on at the end of radio announcements. The method of notification will be determined through an initial screening of the area.

DISSEMINATION OF INFORMATION

Information on Title VI and other programs will be crafted and disseminated to employees, contractors and subrecipients, stakeholders, and the general public. Public dissemination efforts may vary depending on factors present, but will generally include: posting public statements setting forth our nondiscrimination policy in eye-catching designs and locations; placing brochures in public places, such as government offices, transit facilities, and libraries; having nondiscrimination language within contracts; including nondiscrimination notices in meeting announcements and handouts; and displaying our Notice of Nondiscrimination at all our public meetings.

At a minimum, nondiscrimination information will be disseminated on our website and on posters in conspicuous areas at our office(s). Project-related information and our most current Title VI-related information will be maintained online.

MEETINGS AND OUTREACH

There is no one-size-fits-all approach to public involvement. A variety of comprehensive and targeted public participation methods will be used to facilitate meaningful public involvement. Methods for engaging stakeholders and target audiences, including traditionally under-served and excluded populations (i.e., minorities, youth, low-income, the disabled, etc.) will include the following:

- Public Relations and Outreach
- Public relations and outreach (PRO) strategies aim

to conduct well-planned, inclusive and meaningful public participation events that foster good relations and mutual trust through shared decision-making with the communities we serve.

- We will seek out and facilitate the involvement of those potentially affected.
- Public events will aim to be collaborative, fun, and educational for all, rather than confrontational and prescriptive.
- Media plans will typically involve multiple channels of communication like mailings, radio, TV, and newspaper ads.
- Abstract objectives will be avoided in meeting announcements. Specific “attention-grabbing” reasons to attend will be used, such as “Help us figure out how to relieve congestion on [corridor name]” or “How much should it cost to ride the bus? Let us know on [date].”
- Efforts will be made to show how the input of participants can, or did, influence final decisions.
- We will do our best to form decision-making committees that look like and relate to the populations we serve.
- We will seek out and identify community contacts and partner with local community- and faith-based organizations that can represent, and help us disseminate information to, target constituencies.
- Demographic data will be requested during public meetings, surveys, and from community contacts and committee members.

PUBLIC MEETINGS

“Public meeting” refers to any meeting open to the public, such as hearings, charrettes, open house and board meetings.

- Public meetings will be conducted at times, locations, and facilities that are convenient and accessible.
- Meeting materials will be available in a variety of

predetermined formats to serve diverse audiences.

- An assortment of advertising means may be employed to inform the community of public meetings.
- Assistance to persons with disabilities or limited English proficiency will be provided, as required.

SMALL GROUP MEETINGS

A small group meeting is a targeted measure where a meeting is held with a specific group, usually at their request or consent. These are often closed meetings, as they will typically occur on private property at the owner’s request.

- If it is determined that a targeted group has not been afforded adequate opportunities to participate, the group will be contacted to inquire about possible participation methods, including a group meeting with them individually.
- Unless unusual circumstances or safety concerns exist, hold the meeting at a location of the target group’s choosing.
- Share facilitation duties or relinquish them to members of the target group.
- Small group discussion formats may be integrated into larger group public meetings and workshops. When this occurs, the smaller groups will be as diverse as the participants in the room.
- Community Surveying
- Opinion surveys will occasionally be used to obtain input from targeted groups or the general public on their transportation needs, the quality or costs of our services, and feedback on our public outreach efforts.
- Surveys may be conducted via telephone, door-to-door canvassing, at community fairs, by placing drop boxes in ideal locations, or with assistance from other local agencies like social services.
- Surveys will be translated into languages other than English, when appropriate.

EXTERNAL DISCRIMINATION COMPLAINT PROCEDURES

INVESTIGATIVE GUIDANCE

- A. Scope of Investigation** – An investigation should be confined to the issues and facts relevant to the allegations in the complaint, unless evidence shows the need to extend the issues.
- B. Developing an Investigative Plan** – It is recommended that the investigator (i.e., Title VI Coordinator or other official trained to conduct Title VI investigations) prepares an Investigative Plan (IP) to define the issues and lay out the blueprint to complete the investigation. The IP should follow the outline below:

 2. Respondent(s) Name and Address (Attorney for the Respondent(s) name and address, if applicable)
 3. Applicable Law(s)
 4. Basis/(es)
 5. Allegation(s)/Issue(s)
 6. Background
 7. Name of Persons to be interviewed
 - a. Questions for the complainant(s)
 - b. Questions for the respondent(s)
 - c. Questions for witness(es)
 8. Evidence to be obtained during the investigation

 - b. Documents needed – e.g., mailing list which shows all physical addresses, P.O. Box numbers, property owner names, and dates when the meeting notification was mailed; other methods used to advertise the meeting.
- C. Request for Information** – The investigator should gather data and information pertinent to the issues raised in the complaint.
- D. Interviews** – Interviews should be conducted with the complainant, respondent, and appropriate witnesses during the investigative process. Interviews are conducted to gain a better understanding of the situation outlined in the complaint of discrimination. The main objective during the interview is to obtain information that

will either support or refute the allegations.

E. Preparing an Investigative Report – The investigator should prepare an investigative report setting forth all relevant facts obtained during the investigation. The report should include a finding for each allegation. A sample outline for an investigative report is provided below.

Sample Investigative Report Template
