# Transportation Performance Measures Transit Asset Management (TAM)

Andy Henry, [andrew.henry@durhamnc.gov](mailto:andrew.henry@durhamnc.gov), August 24, 2022

[www.dchcpmpo.org](http://www.dchcpmpo.org)

# Today's Objective

---

- ▶ Review status of all Transportation Performance Measures (TPM)
- ▶ Present Transit Asset Management (TAM – State of Good Repair (SGR) measures and targets
- ▶ Adopt resolution to support transit systems' TAMS targets

# Status of TPMs

TPM	Adoption Cycle	Last Adopted	Next Adoption Due
Transit Asset Management (TAM)	four years	November 2018	October 2022
Safety -- transit	four years	June 2021	June 2025
Bridge and Pavement Condition	four years*	November 2018	February 2022
System Performance (i.e., travel time)	four years*	November 2018	February 2022
Safety -- roadway, bicycle and pedestrian	annual*	January 2022	February 2022
Greenhouse gas (GHG)	<b>GHG</b> has been published for comments (Notice of Proposed Rulemaking). Staff intend to submit comments by 10/13/22 due date.		

Bring to board in fall 2022

\*Or, 180 days after NCDOT sets their targets.

- ▶ Required by FAST ACT (federal transportation legislation)
- ▶ MPOs have 180 days to support NCDOT's TPM, or adopt MPO customized TPM
- ▶ Must be integrated into the MTP (adoptions and amendments)
- ▶ MTP and TIP must describe how MTP and TIP will contribute to achieving targets
- ▶ No known consequences for MPO if targets not achieved.

# Transit Systems and TAM

## System Plan

- ▶ GoDurham
- ▶ GoTriangle
- ▶ Chapel Hill Transit (CHT)

## Group Plan (NCDOT/IMD)

- ▶ Orange Public Transportation (OPT)
- ▶ Chatham Transit Network

- ▶ If in MPO Plan, must provide Transit Asset Management plan and State of Good Repair (SGR) measures/targets to the MPO
- ▶ Target updates:
  - Transit provider – Annual
  - MPO – every four years

# SGR Targets

Performance Measure	Asset Category	Example ULB <sup>(1)</sup>	Targets:			
			GoDurham	GoTriangle	Chapel Hill Transit <sup>(2)</sup>	State <sup>(3)</sup>
Percent of revenue vehicles that have met or exceeded their Useful Life Benchmark (ULB)	Revenue Vehicles	8 - 14 years	44%	20%	0%	20%
Percent of vehicles that have met or exceeded their Useful Life Benchmark (ULB)	Equipment	8 years	78%	87%	0%	20%
Percent of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) scale <sup>(4)</sup>	Facilities	TERM: 5-excellent 1-poor	0%	0%	0%	20%
(1) Systems use varying year and mileage thresholds for different asset classes. These are examples.						
(2) CHT data is from the FTA National Transit Database (NTD).						
(3) Orange Public Transportation and Chatham Transit Network chose to join the State consortium lead by NCDOT/IMD.						
(4) Facilities do not have a Useful Life Benchmark such as "years." The TERM condition scale is used instead of years.						

# Action Today:

---

- ▶ Receive the State of Good Repair (SGR) targets, and
- ▶ Adopt the TAM resolution stating that MPO plans and policies support the SGR targets
