A COMMUNITY INVESTMENT IN TRANSIT

ORANGE COUNTY

FY24 TRANSIT WORK PROGRAM

SUMMARY

The FY24 Work Program balances the careful use of taxpayer dollars with planned transit investments. While previous Work Programs focused on completing projects included in the 2017 Orange Transit Plan, the FY24 Work Program looks to initiate new services identified in the Orange County Transit Plan. Even with the new services, FY24 continues operating improvements for Orange County transit users:

- Additional service on Chapel Hill Transit routes A, CM, CW, D, F, HS, J, and NS
- Additional service on GoTriangle routes 400, 405, 800, CRX and ODX
- Continuation of the Hillsborough Circulator
- Expansion of GoTriangle Paratransit service

In addition to the above services, most of which have been provided for many years, there are some relatively new operating services that will continue in FY24:

- The Hillsborough Amtrak Train Station and co-located bus stop
- An annual installment for replacement bus purchases

The primary capital improvement in the FY24 Work Program remains the Chapel Hill Transit North-South Bus Rapid Transit (N-S BRT) project. Funding is available in FY24 and beyond to continue the planning, design, and construction for this project. In addition to the N-S BRT, the following capital projects are funded:

- The Hillsborough Amtrak Train Station and co-located bus stop
- Design for a new Regional Transit Facility to serve the Triangle
- An annual installment for replacement bus purchases
- Vehicle acquisition and replacement
- Regional Fleet and Facilities Study Implementation - Nelson Road

FY 2024 expenditures balance with revenues, primarily due to significant sales tax revenue growth. The North-South BRT project implements an important transit plan capital investment.

BACKGROUND

The governing boards of GoTriangle, DCHC MPO, and the Orange County Board of Commissioners adopted the first Bus and Rail Investment Plan in 2012, prior to the referendum on the transit sales tax. Following adoption of the transit sales tax referendum and passage of the Orange County transit sales tax referendum in 2012, an Interlocal Agreement (ILA) was adopted by the three parties in 2013. The ILA guides the overall implementation of the four transit tax funds and the expanded transit network they are used to fund. The ILA also created the Staff Working Group (SWG), comprised of staff from the three ILA parties.

Per the ILA, the SWG is charged with producing a recommended Orange Annual Transit Work Program (Work Program), comprised of annual operating and capital budgets, including future assumptions of spending on those operating and capital projects. This Draft FY24 Work Program operates under the current Orange Transit Plan and anticipates a 2023 adopted Orange Transit Plan by the GoTriangle Board of Trustees, the DCHC MPO Board, and the Orange County Board of Commissioners. The Draft FY24 Work Program incorporates high-priority projects identified through the planning process for the new Orange County Transit Plan. Those projects that require an amendment to the 2017 Plan, per the existing ILA, will undergo that process prior to adoption of the FY24 Work Program.

There is a process underway to examine the ILA and make recommendations for amendments. It is likely that a new ILA will be adopted and in place for the FY24 Work Program.

FY 2024 DRAFT ORANGETRANSIT WORK PROGRAM

FY 2024 REVENUES

A total of \$11.4 million in expected revenues is budgeted in the FY24 Work Program from the four funding sources available to the transit tax district, as provided in NC law. The largest source of funds is the half-cent local option sales tax. Administered by GoTriangle, the local sales tax went into effect in 2013. The total amount of expected revenue in FY24 from the half-cent sales tax for Orange County is \$9.5 million. In addition to the half-cent sales tax, the FY24 Work Program has three other revenue sources: A portion of the 5% vehicle rental tax that is apportioned to Orange County; \$740k is projected for FY24. A \$3 county vehicle registration fee; \$358,222 is projected for FY24. A \$7 county vehicle registration fee to fund public transportation systems; \$831,178 is projected for FY24.

FY 2024 EXPENDITURES

The expenditures described below are divided between operations (including administration), and capital.

Projected Operations Expenditures: \$6,153,716 million

New Operations Projects: \$264,945

The FY23 Work Program continues all service enhancements from the 2017 Orange Transit Plan and have been funded in previous work programs, with no cuts to existing operations. These operations projects include additional service (above 2013 levels) on the following Chapel Hill Transit (highlighted in blue), Orange Public Transit (highlighted in Orange), and GoTriangle (highlighted in green) routes:

• CHT A	• CHT CM
• CHT CW	• CHT D
• CHT F	• CHT HS
• CHT J	• CHT JS
• Hillsborough Circulator	• Mobility On-Demand
• Route 400	• Route 405
• Route 800	• ODX
• CRX	

In addition to these route-specific improvements, beginning with funding in FY21, Chapel Hill Transit expanded services throughout its system on Saturdays and Sundays, including expansion of the on-demand EZ Rider service. More information on each of the operations improvements are available in the project sheets later in this document.

Nationwide, there has been a shortage of bus operators which has required service reductions in both Orange and Durham counties. Chapel Hill Transit will focus on returning to normal operations once a full staffing of bus operators can be achieved prior to any route expansion.

Included as part of the operations budget, administrative services for the transit plan and the transit tax district are provided by GoTriangle, Orange County, and the Durham-Chapel Hill-Carrboro Metropolitan Planning Organization (DCHC MPO). The total programmed budget for administrative services in FY24 is \$893,470. Ongoing administrative services increased by 2.5 percent from FY23, which is the standard cost of living increase for all projects year over year. Administrative costs are broken out into two distinct functions: transit plan administration and transit tax district administration.

Administration of the transit plan is conducted by two entities: GoTriangle and Orange County. GoTriangle provides transit planning, public outreach, and legal and administrative support services. Furthermore, the necessary oversight and administration of GoTriangle's capital and operating projects are handled through transit plan administration. Orange County hosts the Staff Working Group (SWG) administrator, who is responsible for coordination of the SWG, which includes staff representatives for the parties to the ILA and makes recommendations on budget issues, oversees implementation of the transit plan and annual work program, and prepares the draft annual work program for adoption. The SWG administrator also drafts the

work program and other supporting documents for the SWG. The total budgeted for transit plan administration in FY24 is \$628,525.

GoTriangle staff manage the financial aspects of the Orange Transit Tax District. In addition to managing the budgets and reimbursements as called for in the annual work programs, Orange Transit Tax District staff handle all fiduciary responsibilities for the Orange Transit Plan as a whole, including financial modelling for the development of the new Orange Transit Plan. The total budgeted for transit tax district administration is \$321,253. This amount includes a request from GoTriangle for an additional 0.25 FTE (1/4 of the cost of an additional staff member) to improve the services and responsiveness of tax district administration.

Projected Capital Expenditures: \$5,248,160

The capital projects budgeted in FY24 are in three categories: bus rapid transit (BRT), transit infrastructure, and vehicle acquisition. More detail on each project can be found in the project sheets at the end of this document.

Funding continues for development of Chapel Hill Transit's North-South Bus Rapid Transit (N-S BRT) project, which will provide service from the Eubanks park-and-ride lot to Southern Village, also serving downtown Chapel Hill and the UNC campus and hospital. In FY24, \$4,000,000 is designated for N-S BRT.

Transit infrastructure accounts for \$1,036,000 of planned capital expenditure in FY24. This funding is split between two projects: the new train station in Hillsborough and Orange County's share of funds for design of a new regional Research Triangle Park transit facility. Funding for the new Hillsborough train station has been expected since the current Orange Transit Plan inception in 2017.

The remaining capital funds for FY23, \$212,160, is an annual contribution to future purchases of replacement vehicles for service supported by the transit tax. The useful life of a bus ranges from 10-15 years, and bus purchases for operations that are funded by the Orange Transit Tax Fund are an eligible expense. GoTriangle is introducing a new methodology for vehicle acquisition planning in FY23. Rather than setting aside a large amount of funds in the year in which the vehicles are to be ordered, making it difficult to make any other capital improvements in that year, instead GoTriangle is beginning a "level buying" program, in which a set amount of money is set aside each year for future purchases.

The proposed FY24 work program will shift at least \$27,465 to a fund balance account projected to contain about \$4M dollars at the end of FY 2023.

-------------------	-----------	-------------------------	----------------	----------------------------	-------------

Project Description

Due to high demand for express service between Chapel Hill and Raleigh, additional trips were added to Route CRX (Chapel Hill - Raleigh Express). The project encompasses NC-54 and I-40 between UNC Chapel Hill and downtown Raleigh and will serve people traveling between Chapel Hill and Raleigh at peak times. The benefits are more options for trip times, leading to less crowding.

This project was originally charged 100% to Orange County, but proportionate additional investment from Wake County started in Wake's FY19 work plan.

Project Description

Due to high demand for express service between Durham and Chapel Hill, additional trips were added to Route 405. The project encompasses the US 15-501 corridor between Durham Station/Duke University and Chapel Hill/Carrboro and will serve people traveling between Durham and Chapel Hill at peak times. Key benefits include more options for trip times, which leads to less crowding.

This project is charged 50% to Durham County and 50% to Orange County.

Project Description

For youth ages 13-18, transit agencies across Orange, Wake and Durham County will continue to offer a 'Youth GoPass' program. These fare passes are issued by GoTriangle, GoDurham, GoRaleigh, or GoCary with valid K-12 School ID Cards, or with transit agency issued identification cards. GoTriangle, GoDurham GoRaleigh, GoCary, and , in partnership with the respective County's, will continue to work with schools along triangle County's bus network to issue the passes. Passes will also continue to be available to those with a valid ID at GoDurham Station, GoRaleigh Station, the Town of Cary Finance Department, the GoTriangle Regional Transportation Center, public libraries, and regional centers. This project covers the cost of offsetting fares that would have been collected by GoTriangle in the county share of routes, in addition to purchasing the supplies needed for this program. The estimated cost is allocation of GoTriangle- Orange share of Youth GoPass boardings in Orange County.

Project Description

This project will cover the annual costs associated with updated mobile ticketing technology for GoTriangle buses. Share of cost based on FY19 boardings reported in Orange County.

This project request also allocates a portion of hold harmless against any reduction of fare revenue as a result of implementing this uniform fare strategy. The regional fare-working groups priorities include (1) Improving Pass Distribution and Sales; (2) Balance Revenue and Ridership Goals; (3) Improve the Passenger Experience; (4) Improve Regional Coordination; (5) Make Transit an Affordable Option; and (6) Explore New Fare Technologies. These earmarked funds will be estimated and will be dependent on the final methodology developed by a Fare Working Group.

Project Description

This project culminates service improvements to Chapel Hill Transit operations using Orange Transit Tax funds from its inception in 2013. These funds provide additional hours of operation at times that were most demanded by the public: evenings and weekends. This project funds evening and weekend service on the following routes: A, CM, CW, D, F, HS, J, and NS. This project allowed Chapel Hill Transit to operate Sunday service for the first time. In addition, this project funds expansion of the on-demand EZ Rider service.

-------------------	------------	-------------------------	------------------------	----------------------------	-------------------

Project Description

This project will construct accessibility and amenity improvements at high ridership GoTriangle stops within Orange County that are currently unimproved and do not meet Americans with Disability Act (ADA) requirements. This project is in progress: stop improvements have been identified and design is complete at four stops. Design is underway at additional locations.

Rising costs and complex site conditions such as flood-plain, utilities, drainage, and slopes at multiple sites have increased the estimated construction costs. GoTriangle requests \$50,000 in additional Orange County Transit Plan dollars to be matched by an application for \$200,000 in federal funds from DCHC MPO's Regional Flexible Funding program.

This project additionally covered design costs associated with the five completed Orange County Public Transit Stops, constructed by Orange County (Transit Plan project ID 19OPTCD01).

Project Description

NOTE: Project sheet to be updated with cost estimate from 15% schematic design, in progress as a part of the Fleet and Facilities Study. The project sheet will request funding for phases of construction required to operate services identified in the Transit Plan.

The ongoing fleet and facilities study is evaluating constraints and needs for maintenance, storage, fueling, and servicing capacity as well as work-flow efficiency at the GoTriangle Nelson Road bus operations and maintenance facility. The outcome of this study will include site selection, schematic design, and cost estimates for a new and/or expanded facility. The study includes a regional coordination element to identify opportunities for shared facilities for vehicle storage, servicing, and/or repairs. The study has identified onsite expansion and renovation of the current Nelson Road facility as the most cost effective option to address current needs and provide opportunity to address future fleet needs over the course of the useful life of the renovated facility (40+ years). The completed study will include phases and associated costs of handling the fleet required to operate the services identified in the Bus Plan.

The GoTriangle Operations and Maintenance Facility at 5201 Nelson Rd, Morrisville, NC was originally constructed in 1998. In 2006, the facility was updated to add space for administrative functions. GoTriangle is currently operating near capacity of the existing facility. GoTriangle's Regional Fleet and Facilities Study recommends the design, renovation, and expansion of their Nelson Road Operations and Maintenance Facility. This capital improvement will add the needed capacity required to accommodate GoTriangle's projected fixed-route fleet of 120 buses, including vehicles needed for operations in Wake, Orange and Durham Counties, through 2050. The renovation and expansion will also include updates to better accommodate the facility's administrative functionality. The Regional Fleet and Facilities study has also projected the need to relocate GoTriangle's paratransit maintenance and servicing to a new facility to reach full build-out, the funding for which is not included in this project's design and construction allocation. Facility costs to update the Nelson Road facility will be shared across GoTriangle's service areas.

Project Description

The FY24 request includes phase II of the project, which consists of land acquisition, design, and construction of a new regional transit center (RTC). The current feasibility study includes an evaluation of the current facility and identification of necessary passenger amenities and infrastructure improvements, and a feasibility study to evaluate the potential new locations for the RTC, taking into consideration current and future planned routes, land use, supply, and price. This study will be used to inform the location and design of phase II. The current feasibility study is funded by county transit plans in Wake, Durham, and Orange counties.

The GoTriangle Regional Transit Center (RTC) is the primary hub for GoTriangle regional bus services connecting Wake, Orange, and Orange Counties. This study includes an evaluation of the current facility and identification of necessary passenger amenities and infrastructure improvements, and a feasibility study to evaluate the potential new locations for the RTC, taking into consideration current and future planned routes, land use, supply, and price. The current location of the RTC on Slater Road in Orange creates overlapping routes leading to inefficiency, and is not proximate to I-40 which causes delays and reduced reliability during peak commuting times. The feasibility study is evaluating location options that improve operating efficiency and reliability, connections to planned BRT and CRT, as well as potential for transit-oriented development.
